

How Much Rebate Money Have You Overlooked

Energy\$martTM PROGRAM

The Energy\$mart Program is a national energy rebate acquisition program that has secured **TENS of MILLIONS of DOLLARS** in rebates for our clients!

Work \$marter, Not Harder

Rebate acquisition can be a time consuming and often cumbersome process. Leave the paperwork and administration to us. Through our comprehensive database of rebate programs in all 50 states we can identify opportunities and complete all the steps necessary to secure your rebate dollars.

Don't worry about your rebates any longer, call Energy Industries today to find out how simple it can be!

Our fees are based upon our success, so there is no risk on your part.

“ With their rebate expertise, Energy Industries was able to attain a rebate from the utility much higher than what we had expected. They also handled all of the paperwork and interface with the utility so all I had to do was receive my check! ”

- Mike Kim Seu, Manager of Facilities
Queens Medical Center

The Energy\$mart Program is a national energy rebate acquisition program that has secured **TENS of MILLIONS of DOLLARS** in rebates for our clients!

As one of the nation's premier energy services companies, Energy Industries offers the strength, experience, knowledge, and ability to turn your projects into dollars.

Strength

Energy\$mart utilizes our network of over 200 employees worldwide who work to get your energy efficiency projects rebated. This huge team works locally with utilities and Demand Side Management organizations and knows the key individuals. This talented team of rebate experts works with key individuals from utilities and demand side management organizations across the nation.

Experience

Since 1994, Energy Industries has been designing, installing, and maintaining energy efficient systems and working with utilities to attain rebates for our customers. Our extensive experience with energy efficient equipment and programs allows us to swiftly process your application and acquire your rebate - HASSLE FREE!

Knowledge

A working alliance with utilities, states, and other rebate administrators has allowed us to build a comprehensive database of rebate and incentive programs across the country. Our knowledgeable staff includes former demand side management personnel who understand the intricacies to attain the LARGEST possible rebates.

Time IS Money.

Most utilities have deadlines and limited funds, don't lose any more money - Maximize your rebate dollars today.

Here is just a sample of measures you could be receiving rebates for:

- Energy efficiency retrofits (lighting, HVAC, motors, VFD's, EMS, controls, etc.)
- New construction or new equipment purchases
- Equipment Replacement
- Energy Assessments and Feasibility Studies
- Renovations and Additions
- Cogeneration and Renewable Generation
- Much more!

Let our experienced staff acquire those rebate dollars before they are gone!
